**Subject:** Triple Site EPA Remedial Project Manager Change (TRW Microwave Site)

Greetings:

I'd like to introduce you to Lilian Abreu, who recently joined the California Site Cleanup Section I and, effective immediately, will be the new RPM for the TRW Microwave Site. Lilian is an environmental engineer with over 20 years of experience in characterization and remediation of contaminated sites working for the federal government, private consulting, and international organizations. In the past five years she worked for the R9 Quality Assurance Branch where she provided technical support on remediation of large industrial sites to multiple groups in the Superfund and Land Divisions. I'm confident you will come to appreciate Lilian's professionalism and expertise. Lilian can be reached at 415-972-3010, or [Abreu.Lilian@epa.gov](mailto:Abreu.Lilian@epa.gov). Thank you for your patience during this time of transition.

Regards,

**Edwin "Chip" Poalinelli**
